

NEWS 2017

 **burgbad**

Jörg Loew
CEO

OUR NEW PRODUCTS 2017.

For more than 50 years our furniture has been a part of the fundamental change in the way that bathrooms are designed. In doing so, we have introduced innovative solutions and designs year after year which have consistently pursued the path from the “room for the bath” to a “bath in the room”.

This year we have some new products for you too. With Mya and Yumo we developed product ranges which display their diversity in connection with a modern use of forms. Junit, by contrast, is a product range for everyone who wants the advantages of the high-class burgbad design with excellent value for money. We have also developed the product ranges Sys30 and rc40 and have made them a bit more beautiful and smarter.

I look forward to introducing you to these excellent new products. I hope you enjoy exploring the new burgbad designs with the benefits of the old favourites.

Substance is the mind and soul of good design. We hope that you have many inspiring moments as you “plunge into” our new products for 2017.

FRAMED SPACES FOR FREE REIN.

What do you call modern bathroom culture, which combines aesthetic and free thinking? It's obvious: Junit. Dynamic precision works playfully with closed and open furniture elements. The clean lines in black combined with the slim counter and the shelves with self-healing surfaces

ensure sensational conciseness functionally as well as optically. The mineral cast countertop wash basin with subtle surface play in matte and gloss or a ceramic washstand with clean design and fine edge guides provide an invitingly graceful accent.

For everyone with a yen for clarity and accessible, light bathroom design with an expressive character.

AESTHETICISM IN ITS BEST FORM

With its open, inviting and flexible character Junit makes modern extravagance suitable for everyday use. With its clean design and fine edge guide such as on the ceramic washstand its generosity and filigree are also visible.

Junit is also generous and clever on the inside: with clearly structured storage and shelf space.

The mineral cast countertop wash basin with subtle surface play in matte and gloss provides an invitingly graceful accent.

SENSATIONAL STUNNING STYLE

The generous mirror and the extra slim white shelf space make the rectangle perfect structured for everyday use. The new formula for ensuring a stylish bathroom: Junit

PLAYING WITH A FRESH DESIGN

Junit goes to show just how surprisingly dynamic geometry can be: The asymmetric wash basin, floor unit and wall shelf celebrate the design of the cuboid.

All furniture elements follow the shape of the rectangle: clean, accentuated but never severe. It also fulfils its function almost incidentally with storage space, shelf space and a towel rail.

CLARITY IN BEAUTIFUL CONSEQUENCE

Can clarity be sensual? Yumos embodies the answer to this question. Infinitely clear thanks to generous spaces which capture the space, rippling like the movement of a towel and seamlessly create further layers. In an exciting play of warm mellow block colours

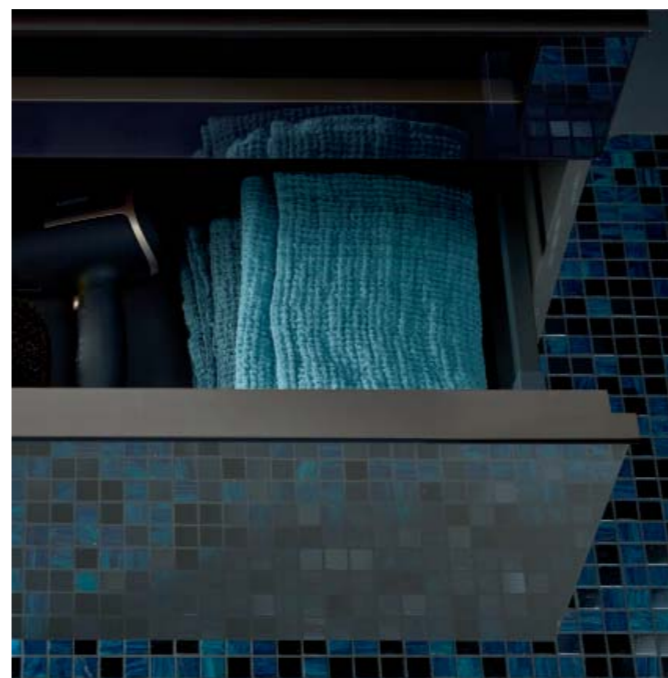

or a clean white and wooden surfaces, Yumo combines transparent visual elements from tinted glass, whose integrated light fittings make an attractive appearance and insight. For a completely unprecedented vitality in the bathroom.

Decluttered serenity blends with unmistakable personal accents: the new language of individual bathroom culture.

COMFORT – REDUCED TO ITS MOST BEAUTIFUL

Even as a soloist, the Yumo single washstand hits the right notes between charmingly pragmatic with an integrated shelf space and flawless aesthetic with sleek flowing surfaces which are contrasted elegantly with a seemingly floating front.

See and be seen: With elegant smoked glass elements Yumo is at the top if its game.

EVERYTHING IN SHIP SHAPE

Yumo manages, irresistibly to blur the boundaries between sober pragmatics and illustrated aesthetic. And in doing so it makes its own object language, characterised by an interplay between spacious, discreet organisation and masterfully well-thought through show effect as with the glass cabinet with an open shelf on the side.

EVERYTHING IN ITS PLACE

The mineral cast washstand really saves space thanks to its asymmetrical design.

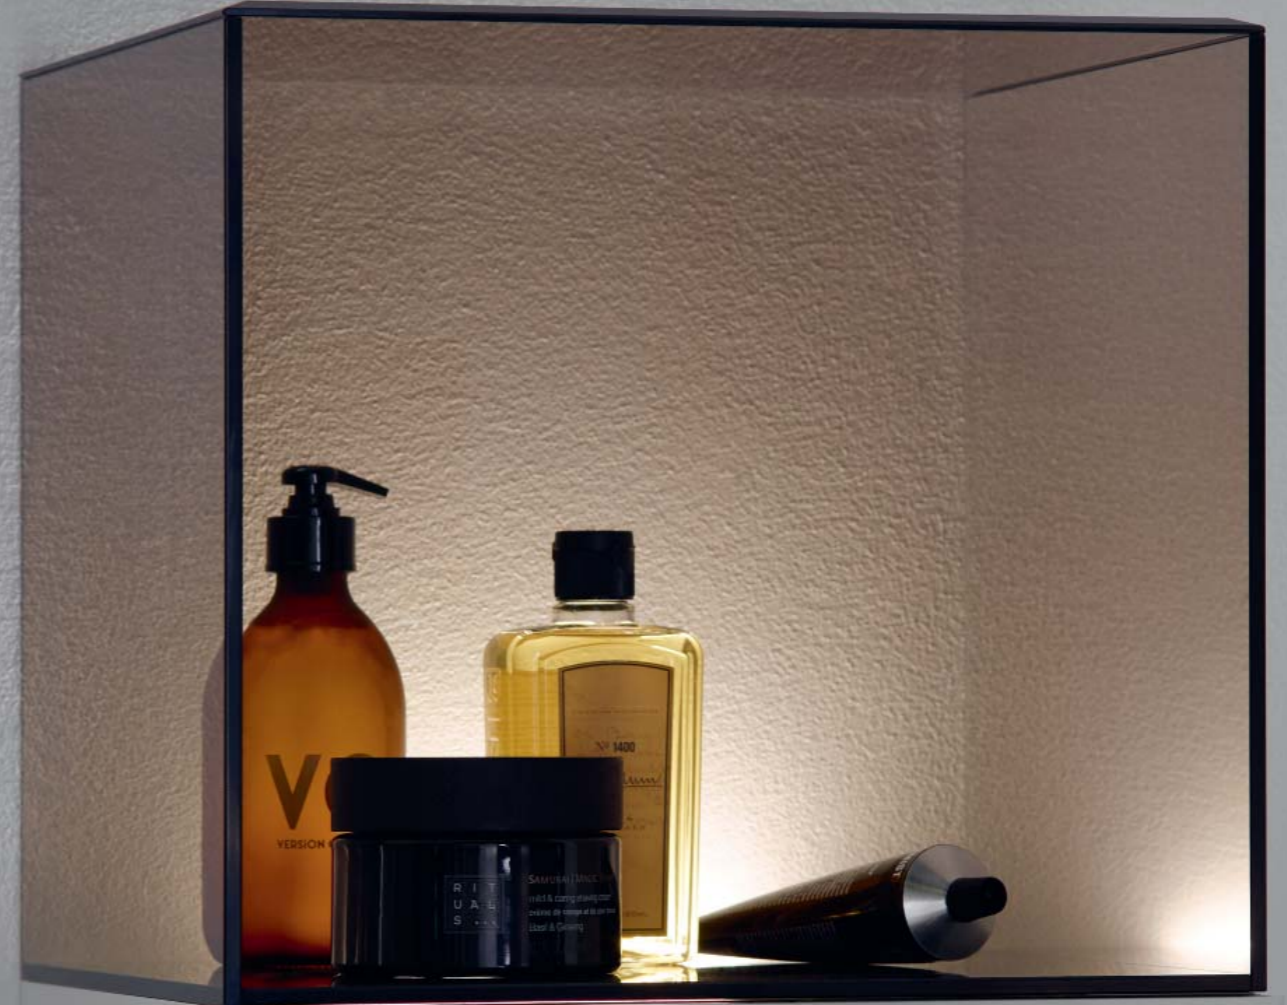

MAKES MORE SPACE

This inviting washstand discretely and charmingly steals back space with its wonderfully thin edge guides and with its flowing integrated lowered shelf space, it generously creates an arena for utensils and accessories, the most important items in your daily bathing ritual.

The clean geometry of this bathroom furniture collection with a hauntingly beautiful twin washstand has an energetic dynamic due to the contrast of the glass elements with the light or dark fronts.

CREATE MOOD LIGHTING

Warm light and subtly lit glass elements discretely catch the eye and invite the beholder to come closer.

COMPACT. CLASSY.

The clever guest bathroom collection wins you over with its sharp look. The maximally compact mineral cast washstand with overhang provides extra shelf space which nonchalantly organises a roll of toilet paper and a hand towel.

Beautiful, when aesthetic and function keep such a refreshingly clear head. The wall mirror with integrated light strip provides contrasting soft light accents. A real dream team!

FORM. PERFECTED.

Open. Warm-hearted. Easy. With almost incidental, subtle elegance. That's how Mya wins your heart and your bathroom. Fine solid wood meets soft leather-matte look

ceramic is also incorporated. Mya is the picture of ease - for 100 % the purest bathing pleasure.

The perfect bathroom symphony: warm light, a large mirror, an open washstand ensemble plus an inviting clothes horse – the day can start now!

IN THE BLACK.

Sense with sensuality. The ceramic washstand in elegant bowl effect in classic black matte is an irresistibly beautiful head-turner.

Aesthetic and charisma are in the detail: soft rounded wood, subtle cool metal elements, leather tabs and subtly positioned light. A delicacy for the senses.

DELIGHTFUL DUO

Ready. Organised. Inspired. The ease of the radiating clothes horse with leather shelf and wall mirror with soft leather pockets are on hand for mornings and evenings.

CONTRAST. STRONG.

The white ceramic washstand with matching counter top makes a contrast which draws the eye – it invites relaxing refreshing moments.

The natural power of Mya's fascinating language of design is seen in the soft rounded edges.

Purity requirements – perfectly transformed in stylish ceramic counter top in matte white with a matching washstand top.

SIMPLY WONDERFULLY PERSONAL.

A modern language of objects characterised by modern, relaxed ease. The shelf boxes are a harmonic interplay of wood, leather and metal. All embedded in the wooden naturalness of the washstand collection, side table and standing mirror. With fine light accents from the round mirror and lamp duo: pure harmony.

BEST CONNECTION.

Precisely worked wood meets cool metal and fine leather – a gloriously sensual symbiosis.

In ship shape: the easy breezy clothes horse-mirror combination and the perfectly matching laundry bag.

TIME FOR PERSONALITY

Solo for elegance, grace and personality. Diva is the queen of individual bathing culture. She shows how flawlessly beautiful, seductively perfect in design and model and

temptingly sensual thousand-year-old bathing rituals are taken to a new level: a masterful game of intimacy and staging. Applause!

PERFECT PROPORTIONS

Masterfully played in the details with softly arched areas, seams and lesene. The seductively beautiful mineral cast washstand with floor unit in real wood breathes natural comfort.

The mineral cast washstand and the elegant interior of the floor unit celebrate the round design.

Diva 2.0

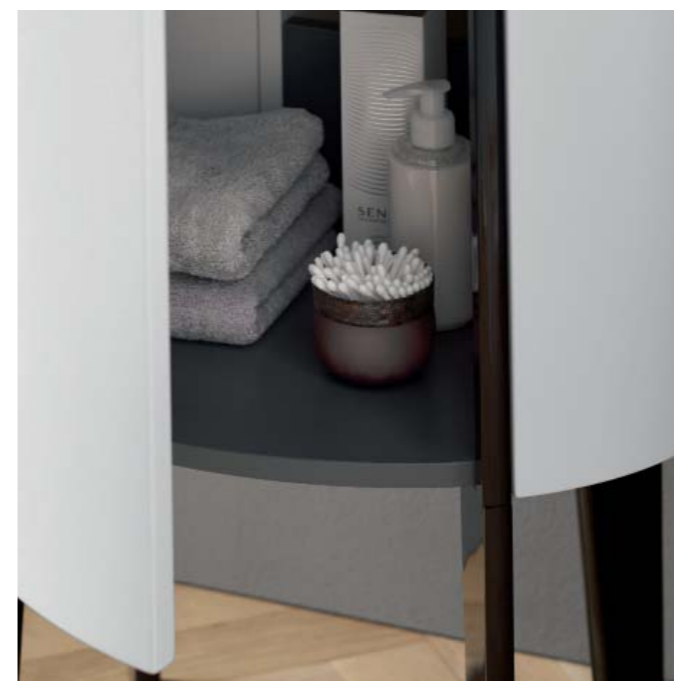

PERSONAL BATHROOM AESTHETIC

The arched surfaces, floating round mirror with surrounding LED light and contrasting joints bring the three-dimensionality of Diva 2.0 stand-alone furniture sensually alive.

The mirrored shelf, table and vanity cabinet with integrated stool delight the eye as well as the hand with irresistible perfection.

A LAVISH ENTRANCE

Experience a bathroom which takes your guests on a journey through time: As a barock solution for ornate guest bathrooms, Diva 2.0 is impressive with a mineral cast washstand and precisely mitred edges.

In black and white lacquer, Diva 2.0 shows its elegant-chic side and creates a collection which comes close to being art.

CLEVERNESS CORNERED.

Designed with panache and dynamics – perfect for challengingly shaped bathrooms. Sys30 shows how refreshingly compelling pragmatic issues about the daily function of the bathroom can be solved when you think more laterally. At first glance: a clean friendly inviting form and design. At second glance: practical, user-friendly details: such

as the ergonomic, seamless washstand with a raised surrounding edge, the finish is just as attractive as it is hygienic. Or the delicate handle which also takes on the function of a hand towel holder. Everything is wonderful- down to the last corner.

THE NEW DIMENSIONS

A real wow effect of the new dimensions: Sys30 perfectly gets to the heart of functionality, utility and looks. With a wholly mature corner solution which surpasses itself in the most compact bathrooms – and with the mirrors positioned over the corner in combination with the light canopy makes the bathroom appear larger.

Day after day, Sys30 provides stunningly beautiful surprises: In the generous wall cabinet with side access all your important things have their place. The drawer in the washstand is discretely integrated for use as a laundry holder or a bin.

ALPHA AND OMEGA

The alphabet of good taste and innovative solutions for the bathroom is at your fingertips with Sys30. With the C shaped support for lots of shelf space. The round, ergonomic mineral cast counter top wash basin with attractive flow of gloss and matte really dots the i's and crosses the t's.

LIGHT FOR YOUR BODY AND SOUL.

Burgbad has developed an innovative mirrored cabinet which reacts to the light needs of the people in the bathroom.

The new rc40 mirrored cabinet has a LED up-light which fills the bathroom with light. This room light acts almost like natural sunlight: it is light, soft and anti-glare. The mirrored cabinet, however, has more to

offer. It has the latest lighting control. This means you have to right light for the right time. You can choose between four light moods. The respective symbols are activated on the surface of the mirror by the sensor. The lighting control combines indirect room lighting with two elegantly integrated, anti-glare LED light pillars.

LOVE IN THE DETAIL.

What would the bathroom ambiance be without the small things which delight the eye? Make space. Arrange the outline. Keep things within reach. Hold, hang or present. In short: practical beauty or beautiful

practicality, it makes your bathroom tasteful and creative – from all sides.

Design, quality and aesthetic hidden in the detail: these are the burgbad accessories.

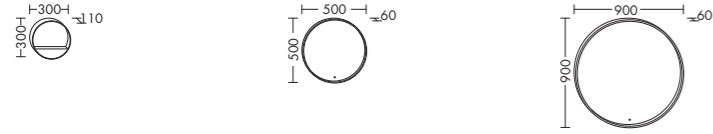

Whether it's a bench, towel holder or porcelain bowls, the high-class accessories by burgbad make every bathroom beautiful.

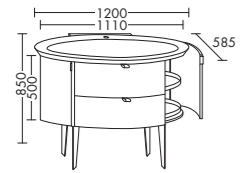

Welcome to the details. On the following pages we present structured information which will help you with your individual planning. You are provided with an overview of all gloss paints and surface variations such as real wood, thermoform, acrylics and melamine available at burgbad. A technical representation of all furniture programmes with exactly dimensioned individual pieces of furniture is also included.

Warranty

Description

The electronic description of our furniture consists of tested parts and complies with the requirements in the CE directives.

German Quality Company

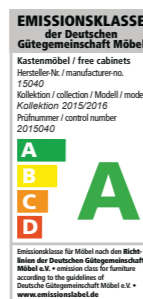

We are members of the "German Furniture Quality Assurance Association e.V.", an association of furniture manufacturers and suppliers. It awards environmentally-friendly quality furniture its seal of approval. Because, furniture should not only be beautiful, it should also be durable and must not harm health. The "German Furniture Quality Assurance Association" has all products of their members approved and awarded by neutral instituts according to strict regulations of RAL GZ 430. This regulation consists of all actual norms and requires even higher specifications.

Förderung nachhaltiger Waldwirtschaft
www.pefc.de

burgbad backs sustainable bathroom furnishings

burgbad orientates its purchasing decisions on verifiable facts showing that the wood materials for the product in question originate from ecologically, economically and socially sustainable forests. All our wood materials are from verified sources. At least 70 % of the wood raw materials we buy are PEFC certified. Wood carrying the PEFC certificate of origin is free from any suspicion of originating from illegal logging or exploitation. It is proven to come from forests that are managed in harmony with nature and in line with strict criteria – so that they are fully retained for future generations.

Emissions label for furniture

In Germany burgbad achieves best possible classification in the world's first emission label for furniture. The DGM emissions label gives you information on emissions of harmful substances at a glance and is intended to protect you against negative impacts on your health. The entire range of burgbad furniture is classified in emissions class A. For your safety.

5 burgbad means outstanding quality. Guaranteed.

Five-Year warranty

We provide a five-year warranty on your burgbad bathroom furniture from the invoice date. Warranty claims are only valid where the furniture has been properly installed by a sanitation expert in appropriately solid masonry. Showroom pieces, wearing parts and damage caused by violent actions or improper treatment or installation are excepted from the warranty. This does not affect the statutory warranty rights. Please see the warranty certificate for more information.

Real wood fronts

Real wood fronts are produced with veneers made from grown wood. A complex process is used to adhere the veneer to the substrate material under high pressure, before it is ground and varnished with multiple layers. This gives the front its natural character.

Varnished fronts

Varnished fronts are among the highest-quality furniture surfaces. In complex production steps, MDF substrate boards are primed, varnished multiple times and polished to achieve high sheen.

Melamine fronts

Melamine fronts are boards that are coated across their entire area and finished with a thick edge all the way around.

Thermoform fronts

Thermoform fronts are manufactured using a thermoforming process. This process has the advantage of allowing the outer side and the side edges to be coated simultaneously, with no join.

Acrylic fronts

Acrylic fronts are high-gloss and create an excellent sense of depth. The fully-coated board and the edge are welded together to form a jointless unit using innovative laser technology.

Ceramic: A material for the highest standards

Ceramic has been a material offering countless options for millennia. In the burgbad production facilities, it is brought together with the technical possibilities of the 21st Century. The material's outstanding qualities are optimised once again as the ground mass is produced, before being cast in a wide range of shapes and fired at over 1,200 degrees. The result is a material that sets new standards when it comes to its durability, the resistance of its surfaces and colours, and its dirt repellence.

Mineral cast: A unique look with outstanding properties

The material mineral cast consists of mineral fillers such as silica sand and rock flour, as well as selected colour pigments. What makes it special is its ability to take on almost any shape. Extremely accurate production with no joints and a pleasant feel is guaranteed – exactly in line with our standards for how our products should look.

Lighting: Staging of the highest standard

Perfect illumination is essential to bring sophisticated design and perfect functionality to life in all their forms. The burgbad lighting concepts are a treat for the eyes and all the senses. After all, light is quality of life – especially when it is used in line with state-of-the-art technological aspects. Innovative LED lamps for washbasins or mirrored cabinets that produce almost completely glare-free light. For true colours, natural skin tones and the endless fascination of colours and surfaces.
